EXECUTIVE OFFICER

County of Los Angeles
383 Kenneth Hahn Hall of Administration

Dear Supervisors:

**APPROVAL OF AN AMENDMENT TO FURTHER IMPLEMENT THE MENTAL HEALTH SERVICES ACT – COMMUNITY SERVICES AND SUPPORTS PLAN**
**AND**
**APPROVAL OF REQUEST FOR APPROPRIATION ADJUSTMENT**
**(ALL SUPERVISORIAL DISTRICTS)**
**(4 VOTES)**

**IT IS RECOMMENDED THAT YOUR BOARD:**

1. Authorize the Director of Mental Health to prepare, sign, and execute an amendment substantially similar to Attachment I to an existing Department of Mental Health (DMH) Affiliation Agreement with the University of Southern California (USC) to develop the Urgent Care Center (UCC) Program in keeping with the California Mental Health Services Act (MHSA) Community Services and Supports (CSS) Plan for Fiscal Year (FY) 2006-07 only, effective upon Board approval. The FY 2006-07 cost of this action is $300,000 fully funded with MHSA funds, which brings the revised Total Contract Amount (TCA) for FY 2006-07 to $526,200.

2. Delegate authority to the Director or his designee to prepare, sign, and execute future amendments to the Affiliation Agreement provided that: 1) the County's total payments to the Contractor under the Agreement for each fiscal year shall not exceed a change of 20 percent from the applicable revised TCA; 2) any such increase shall be used to provide additional services or to reflect program and/or policy changes; 3) the Board of Supervisors has appropriated sufficient funds for all changes; 4) approval of County Counsel and the Chief Administrative Office (CAO) or their designee is obtained prior to any such Amendment; 5) the County and Contractor may, by written Amendment, mutually agree to reduce programs or services without reference to the 20 percent limitation; and 6) the Director of

Mental Health shall notify the Board of Supervisors of Agreement changes in writing within 30 days after execution of each Amendment.

3. Approve the Request for Appropriation Adjustment (Attachment II) for FY 2006-07 to increase Services and Supplies (S&S) in the amount of $300,000 to provide spending authority for the development of the UCC Program with USC. The Appropriation Adjustment is fully funded with MHSA funds currently budgeted in a Designation in the MHSA Special Fund.

## PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

The purpose of the requested Amendment is to enable USC to take a major role in developing the UCC Program design, budget, operational details, policies and procedures, staffing and staff training, and timeline for implementation. Board approval of the recommended actions will facilitate USC's participation in the design of a UCC affiliated with Los Angeles County and USC (LAC+USC) Medical Center to be located in proximity to the LAC+USC Medical Center's Psychiatric Emergency Services (PES).

This UCC is envisioned as a collaborative effort among DMH, which would fund and contract for the program; the Department of Health Services (DHS), which would provide facility space and related costs; and USC, which would be responsible for program operations including integration with other DHS services and community-based resources.

The first phase of implementation is contemplated for July 1, 2007, when services would be offered during the regular work week, with full 24-hour per day/7-day per week operations projected for November 2007.

## Implementation of Strategic Goals

The recommended Board actions are consistent with the principles of the Countywide Strategic Plan: Organizational Goals, No. 1, "Service Excellence," and No. 3, "Organizational Effectiveness," and Programmatic Goal, No. 7, "Health and Mental Health." The approval of these actions is expected to facilitate the development, delivery, efficiency, and effectiveness of mental health services for individuals in crisis, many of whom are currently underserved and at risk of hospitalization, institutionalization, or incarceration.

## FISCAL IMPACT/FINANCING

There is no increase in net County cost.

The cost of the requested action, which is for FY 2006-07 only, is $300,000 fully funded with MHSA funds currently budgeted in a Designation in the MHSA Special Fund.

The Request for Appropriation Adjustment in the amount of $300,000 will increase S&S to fund the development of the UCC Program by way of an amendment to the USC Affiliation Agreement with DMH.

## FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The UCC is intended to relieve the overcrowding in the LAC+USC PES and the related increasing demand for inpatient services; provide 24/7 recovery-oriented outpatient psychiatric services for individuals in crisis who do not require hospitalization, if stabilized with intensive outpatient services; promote integrated treatment for mental health clients with co-occurring substance abuse disorders; provide linkage to community resources; and serve as a training site for mental health professionals, in accordance with the Department's MHSA-CSS Plan.

USC is uniquely qualified to provide the development of the UCC Program in that it currently provides the LAC+USC Medical Center inpatient and outpatient mental health services under contract with DHS. DMH plans to return to your Board at a later date for authority to contract with USC to also provide mental health services for the UCC Program. A key element of the LAC+USC UCC would be to ensure integration with other services at the LAC+USC Medical Center as well as with the larger community of mental health providers, including the recently implemented Full Service Partnerships and other programs funded by the MHSA. The UCC Program would include internships and residency training in community psychiatry and urgent care services for psychiatrists and psychologists as well as training opportunities for social work, nursing, rehabilitation, and other professions. Accordingly, it is critical that USC, through the proposed amendment to the Affiliation Agreement, is able to take a major role in developing the LAC+USC UCC program design over the coming months. The current Agreement between DMH and USC provides forensic fellows services.

The requested actions are consistent with the PES Relief Plan (Plan) developed by DMH and DHS in conjunction with the CAO. The Plan includes UCCs, strategically

located throughout the County, to relieve the overcrowding of the County PES and to provide community-based alternatives to hospitalization for individuals in crisis who could be stabilized with intensive outpatient services. Since September 2004, DMH has implemented two (2) directly operated UCCs, Augustus F. Hawkins and Olive View Medical Center, and one contracted UCC, the Westside UCC, which opened in December 2006.

The attached Amendment format has been approved as to form by County Counsel. The CAO has reviewed the proposed actions. Clinical and administrative staff of DMH will continue to administer and supervise the Agreement, evaluate the program to ensure that quality services are being provided to clients, and ensure that Agreement provisions and Departmental policies are being followed.

## CONTRACTING PROCESS

The requested actions are an extension of an existing contract which will ensure that the UCC program under development will be well coordinated with an integral part of the existing LAC+USC Medical Center outpatient and inpatient mental health services.

Notification of Intent to Enter Into Sole Source Contract Negotiation with USC was sent to your Board on March 19, 2007.

## IMPACT ON CURRENT SERVICES

Implementation of the UCC Program will enhance clients' ability to achieve improved quality of life outcomes and wellness, and also will facilitate an academic-public partnership with USC that will positively impact the efficiency and effectiveness of the UCC services to be developed.

**CONCLUSION**

The Department of Mental Health will need one (1) copy of the adopted Board actions. It is requested that the Executive Officer of the Board notify DMH Contracts Development and Administration Division at (213) 738-4684 when this document is available.

Respectfully submitted,
