

# MIS INFO-LINE

**SUBJECT: EMPLOYMENT STATUS CODES**

**DIRECTED TO: All Providers**

Two new codes have been added to the list of Employment Status codes. The codes are:

- CW CalWORKs Welfare to Work Program
- GW General Relief Opportunity for Work Program

The employment status field is located on the Episode (EPIS) screen. Providers are to use these codes to identify clients enrolled in either the CalWORKs or GROW programs. These codes should be added to open clients receiving mental health services, as well as new admissions to your facility. These codes must be used in conjunction with the appropriate CalWORKs/GROW activity codes.
