INFO-LINE

SUBJECT: Cal WORKS and GROW REPORTS AVAILABLE ON THE NETWORK

DIRECTED TO: ALL Cal WORKS and GROW PROVIDERS

We are pleased to announce that the Cal WORKS and GROW summary reports are available online. June 2000 reports are now available through the Department's Network at the following address:

<https://dmhdowney.co.la.ca.us/mis>

To view the reports you will be prompted to enter your User ID, which is your four-digit provider number assigned by the state. For security purposes, and to limit access to provider reports within a legal entity, you will be prompted to enter a password. You will enter the same password that you currently use to access your monthly reports on CD. The reports will be grouped in the same manner as the reports on CD, by provider within a legal entity.

Because detailed reports contain sensitive information, e.g., name, SSN, Medi-Cal No., at this time, we are unable to provide these reports on the Internet. When we gain more knowledge and experience in data encryption we will make detailed reports available through the Internet. All the Cal WORKS and GROW reports will continue to be mailed.

Should you have any questions or need assistance accessing the web page, please contact Joe Shepherd at (213) 351-4800.
