

## Integrated System News Bulletin

### Identification of Special Programs Now Available in the Integrated System

Attention: **Directly-Operated and  
Contract Providers**

#### STOP – Impact on You

Effective immediately, providers who have AB2034 and ACT programs can now add this information in the SFPR fields of the Client Information Screen. AB2034 and ACT provider staff will either add AB2034 or ACT in the SFPR field. Their four-digit provider number appears next to the Client ID at the top of the screen.

#### CAUTION – What You Need to Know

The following informational message will be returned when accessing the client screen that contains one of the two special programs in the SFPR fields: "LAMH0400 CALL PROV 1 WKDAY 4 AUTHZD SVC".

If you attempt to open a new episode for an AB2034 client this message appears: "This is AB2034 client. You must contact the AB2034 provider within 24 hrs in order to receive authorization to provide services." If you attempt to open a new episode for an ACT client this message appears: "This is an ACT client. You must contact the ACT provider within 24 hrs in order to be receive authorization to provide services."

#### GO – What You Need to Do

If you encounter one of these error messages, do not attempt to open the episode. You must direct the clinician responsible for service delivery at your facility to contact the AB2034 or ACT SFPR within 24 hours to request authorization to provide services. The SFPR telephone number is now available for viewing by clicking the information icon in the SFPR column in the Client Caseload/Client List or Find Client result screens.

For more information regarding AB2034 and ACT authorizations, providers should contact Dr. Maria Funk at 213-738-5497 or Lisa Powell at 213-351-5297.
