POLICY/PROCEDURE**

SUBJECT SCHEDULING INITIAL MEDICATION SERVICES	POLICY NO. 202.46	EFFECTIVE DATE 02/02/2015	PAGE 1 of 3
APPROVED BY:  Director	SUPERSEDES N/A	ORIGINAL ISSUE DATE 02/02/2015	DISTRIBUTION LEVEL(S) 1, 2

PURPOSE

- 1.1 To establish a policy and procedure regarding requirements for the scheduling of initial medication services.
- 1.2 To inform Legal Entities of the policy and procedures in Section 1.1 above with the expectation that similar policy and associated procedures are established in their programs.

DEFINITIONS

- 2.1 **Initial clinical appointment:** The first period of time scheduled by a program with a clinician for the purpose of assessment and associated care. (Reference 1)
- 2.2 **Initial medication services:** A period of time scheduled with a psychiatrist or psychiatric mental health nurse practitioner for the purpose of initiating an assessment and associated medication services.
- 2.3 **Urgent medication services:** Presenting symptoms that:
 - 2.3.1 Are currently causing significant functional impairment or danger to self or others;
 - 2.3.2 Would likely respond to particular medications; and
 - 2.3.3 Could result in further functional deterioration without medication.

POLICY

- 3.1 Any client with a foreseeable need for medication services, as determined by standard screening, who keeps a scheduled initial clinical appointment shall be seen by a clinician who can provide the necessary medication services.

**DEPARTMENT OF MENTAL HEALTH
POLICY/PROCEDURE**

SUBJECT SCHEDULING INITIAL MEDICATION SERVICES	POLICY NO. 202.46	EFFECTIVE DATE 02/02/2015	PAGE 2 of 3
---	--	--	----------------------------------

PROCEDURE

4.1 Requirements for the Scheduling of Initial Medication Services:

4.1.1 When the initial contact is made for an appointment with the mental health center there should be a screening for indications of probable need for medication services by asking the following question and documenting the answer, "Is the client currently taking psychiatric medication for which a refill may be necessary?"

4.1.1.1 If the answer to the screening question above is positive, the scheduled initial clinical appointment shall include a scheduled initial medication assessment for purposes of addressing emergent medication needs.

4.1.2 In case an individual, who did not screen positive for foreseeable medication service need during the contact for purposes of scheduling an initial appointment, is determined at the scheduled initial clinical appointment to have an urgent need for medication assessment, he/she shall be scheduled by the mental health center for assessment by a mental health center clinician who can provide medication services in a timely fashion, i.e., no circumstances longer than five (5) business days from the initial clinical appointment.

4.1.2.1 The District Chief shall be notified in circumstances where the initial medication service is not provided within (5) business days from the initial clinical appointment.

4.1.2.2 The District Chief shall provide a monthly list to the Deputy Director of all individuals for whom a clinical appointment for urgent medication assessment was not available within the timeframe of five (5) business days after the initial mental health assessment was completed.

AUTHORITY

1. LACDMH Administrative Directive
